

We Make It Easy

Let's Get Acquainted

Discover Digital

Take Care of Your Digital Chores Here

When you enter the Resource Center, the digital world is at your fingertips. You can send and receive emails, browse the Internet, play games, compose letters and essays, prepare spreadsheets, print documents or just do a little shopping.

You can also read a digital newspaper, log in to your favorite social media or chat with your grandchildren with applications such as Zoom or Skype.

And, we have headsets available if you want to listen to music or tune in to a podcast.

All About Us

The name, Leisure World Tech, was adopted in 2022 to represent the combined operations of two existing organizations—Leisure World Computer Center

Inc. and Leisure World Apple Club.

We are a non-profit 501(c)(3) corporation. Our primary responsibilities are operating the Technology Resource Center and providing education and training to our community. Management of these tasks is supervised by our seven-member board of directors.

Hours of Operation

The Technology Resource Center in Clubhouse 2 is open six days a week. Hours of operation are:

Monday—Friday: 11 AM to 5:00 PM.

Saturday: 2:00 to 4:00 PM • Closed Sunday

A schedule of times when the center is open and staffed is posted on the door to the facility.

The weekly schedule is also available on our website, www.leisureworldtech.org.

*LeisureWorld*TECH

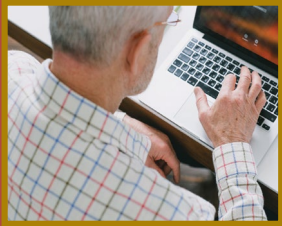

Leisure World Tech manages the Technology Resource Center in Clubhouse 2, right here in our community. The Resource Center is the place to go if you want to work (or play) on a computer, print a file, or learn more about the digital world.

Whether you prefer a Windows or Mac operating system, you'll find a workstation here to suit your preferences and meet your digital needs.

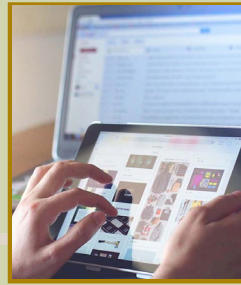

Check our website (www.leisureworldtech.org) or call 301-598-1306 to find out when the Center is open and staffed. The current monthly schedule is also posted on the door to the Center.

Clubhouse 2
3300 North Leisure World Blvd
Silver Spring, MD 20906
leisureworld.tech@gmail.com

A number of workstations are set up with large screens and keyboards to accommodate people with disabilities.

A New Website
Look for us online at www.leisureworldtech.org. Find out what's new at the center, sign up for presentations, watch a video or check out the monthly staffing schedule.

Join our team.
We need people like you to serve as volunteers at the center. You don't have to be a computer nerd —you just need to be willing to help.

Equipment

The Technology Center is furnished with several laptop computers in addition to Mac and Windows desktop systems. A new, large screen TV and supporting sound equipment have been acquired for Zoom and in-house video presentations.

All our computers are loaded with up-to-date software and are connected to printers and other devices through a secure, high speed network managed by the resource center.

Both color and black and white printers are provided. A minimal charge is collected for printing, based on the number of pages processed. Users can also take advantage of scanners, headphones and other digital devices.

Education

Throughout the year, Leisure World Tech offers classes and clinics to help residents make the most of digital equipment and software applications.

As part of that effort, we collaborate with national and local professional groups that provide support and training in a range of related fields.

Most of our educational events are provided as Zoom programs that can be streamed to your home computer. Some smaller, in-person clinics are offered in the Center.

We are looking for innovative ways to provide more training in the use of digital tools. These more complex projects require participation by dedicated residents willing to donate their time and expertise. The availability of such volunteers will determine how much we can expand educational programs.

Teamwork

LeisureWorld Tech is a self-sustaining organization that receives all its funding from donations. Most of our equipment was purchased through grants from the Leisure World Foundation. Donations are welcome and tax exempt.

The Technology Resource Center operates through the generosity of volunteers who serve as monitors, maintenance technicians, educators and board members.

We need more volunteers to keep the Resource Center open during designated hours, to serve on our board and to provide training and education to our community. Please consider supporting the work of this Center by donating a few hours a week to help us serve you better.

If you help staff the Center a few hours a month, volunteer at leisureworldtech.org or send an email to leisureworld.tech@gmail.com
